Philanthropy Done Right

We asked and you answered the call! The 2022 Giving Campaign was a success, raising \$114,150, which will fuel strategic initiatives of the College of Family Physicians of Canada™ (CFPC).

Every donation made in this year's campaign up to the first \$50,000 was matched dollar for dollar by a generous donor who wishes to remain anonymous. With this matching donation we will be able to do more in our mission to advance family medicine.

Your generosity enables initiatives such as the establishment of a research fellowship to explore health system integration policies, a priority for the Section of Researchers (SOR); increased sustainability for scholarly work in family medicine education, as planned by the Section of Teachers; and projects selected by the Trailblazers, the Foundation for Advancing Family Medicine (FAFM)'s community of visionary family medicine leaders, to inform the progress of transformative CFPC initiatives.

Generosity moves the world and yours during the 2022 Giving Campaign helps advance family medicine and improve lives.

Thank you for being a valued member of the FAFM donor community.

Celebrating 2022's Award Recipients

In November we celebrated your triumphs in family medicine throughout 2022. Our three evening events recognized more than 150 students, residents, and physicians from all provinces and territories for their outstanding practice and discipline.

This year also marked the first Family Physician of the Year – Reg L. Perkin Award highlighting an outstanding CFPC member from Yukon, Nunavut, or the Northwest Territories. Congratulations to

Dr. David Pontin for his unceasing efforts toward providing high-quality care to residents of northern Canada and for providing evidence-based practice to his patients.

View the full list of 150 recipients at famf.cfpc.ca/2022Recipients.

2023 Awards Cycle

Applications are open for the FAFM 2023 Honours and Awards!

Our annual awards highlight family physicians' integral contribution to health care and celebrate their achievements and triumphs. For more information on specific opportunities, and to apply or nominate another CFPC member, visit famf.cfpc.ca/apply.

We look forward to celebrating your contributions to advancing family medicine in 2023.

Honours and Awards Research Committee

We have been collaborating with the SOR to optimize the systems and offerings of the Honours and Awards Research Committee (HARC) and improve:

- Relevance, to reflect current themes that advance family medicine
- Sustainability, ensuring that the monetary investment for awards, honours, and grants is maintained

- Transparency in its processes, to ensure compliance with established guidelines and to prevent conflicts of interest
- Capacity for engagement, to offer opportunities for CFPC members to provide their expertise as committee members
- Inclusivity, to include diverse viewpoints to the administration of the Honours and Awards program

Please consider applying to join the HARC by emailing the SOR at research@cfpc.ca.

Your skills and expertise can contribute to the success of the Honours and Awards program and support the continued recognition of your colleagues in the SOR.

Trailblazers

Our Trailblazers continue to support the "Family Medicine Around the World Mapping Project: Lessons for Canada and Beyond" led by the Besroul Centre for Global Family Medicine. This project aims to develop an interactive living map of family medicine training and practice, and to appreciate the role of family medicine within and its effect on health systems around the world.

For more information on Trailblazers and the Family Medicine Mapping project, join the Trailblazers newsletter at famf.cfpc.ca/trailblazers and look for our quarterly updates.
